Starter: Complete these number sequences using your times table knowledge. Look carefully to see if the numbers are getting bigger or smaller and then workout what multiple they are moving up in.

15, 18, 21, 24, 27, ___, ___, ___, ___

105, 110, 115, 120, ___, ___, ___, ___

140, 130, 120, ___, ___, ___, ___

12, 16, 20, 24, ___, ___, ___, ___

1000, 2000, 3000, ___, ___, ___, ___

80, 72, 64, 56, ___, ___, ___, ___

This week, we are going to start looking at money! Today, we are going to recap some of the objectives you should have covered in Year 2 to get us started.

Task 1: First, let's recap the value of each coin. Look at the picture of the coin and write down the value of it, don't forget to write the unit of measure which is P (for pence) or £ (for pound)!
1.

2.

3.

4.

6.

5.

7.

8.

Task 2: Now using your knowledge of the value of each coin and your addition skills, add up these amounts using your mental maths.

1.

2.

3.

4.

5.

Hint: I find it easier to start with the biggest coins first!

Task 3: Look at the amount for each question and in your book draw or write the coins that can make up the amounts given.

1. 85p

2. £1.04

3. 43p

4. 56p

3. 12p

6. £1.00

7. 38p

8. £2.34

Challenge: how many different ways can you find to make £2 using a variety of different coins?
