

## Lincolnshire Agricultural Society Schools' Gardening Competition - Reuse and Grow

This Summer at BJA we have entered a gardening competition. Our pupils are tasked with the challenge of researching, designing and creating a miniature 'Show' garden with a key emphasis on reusing plastics.

We would like as many pupils involved as possible, so we're hoping during the half term break some of you would be willing to make something out of plastic that could be included in our 'Show' garden.

You could use plastic cups, bottles, straws, food containers, bottle tops etc.

Here are some examples of ideas:

- Insect/bee hotel
- Bird bath
- Garden Ornaments/Artwork
- Watering can/sprinkler
- Butterfly hotel
- Bird feeder

The best plastic creations will be included in our 'Show' garden

and the other entries will be added to our garden and wildlife area.

PLEASE BRING YOUR CREATIONS THE WEEK BEGINNING 7<sup>th</sup> JUNE,

THANK YOU! ☺
